EDUCATION

ITM Skills University

Bachelor of Technology in Computer Science and Engineering

Navi Mumbai, Maharashtra

2024 – 2028

EXPERIENCE

Frontend Developer Intern

Hari Om Thalassic Pvt. Ltd.

Jul. 2025 – Oct. 2025

Mumbai, Maharashtra

- Worked on frontend development tasks and contributed to software development activities across frontend and backend technologies.
- Collaborated with supervisors and team members to implement development tasks and support project requirements.
- Applied problem-solving and development skills while working within deadlines and contributing to project objectives.

Operations Intern

LetsUpgrade Edtech Pvt. Ltd.

Jan. 2026 – Apr. 2026

Navi Mumbai, Maharashtra

- Worked as an Operations Intern, supporting day-to-day operational activities and coordination within the organization.
- Collaborated with team members and contributed to assigned tasks while maintaining deadlines and organizational requirements.
- Gained practical exposure to professional workflows, communication, coordination, and workplace operations.

PROJECTS

Budget Optimization Engine | *MongoDB, Firebase, JavaScript, DSA*

- Developed a personal finance platform that analyzes salary, fixed expenses, entertainment spending, and available savings.
- Implemented optimization techniques using Greedy and Knapsack-based approaches to recommend efficient allocation of available funds.
- Designed features for investment suggestions, stock-market investment options, and personalized financial reports.

Loyalty Rewards Program | *React, Node.js, Express.js, MongoDB, JWT*

- Built a full-stack loyalty rewards application with React frontend and Node.js/Express.js backend.
- Implemented MongoDB-based data storage and JWT authentication for secure user access.
- Designed REST APIs to manage users, rewards, and application data.

Ayurvedic Herbal Supply Chain | *Hyperledger Fabric, IPFS, Blockchain*

- Designed a blockchain-based solution for improving traceability and transparency in the Ayurvedic herbal supply chain.
- Explored Hyperledger Fabric for permissioned blockchain infrastructure and IPFS for decentralized document storage.
- Incorporated concepts such as geo-tagging and product traceability to track materials through different supply-chain stages.

CERTIFICATIONS & ACHIEVEMENTS

BNB Chain Appreciation Certificate | *BNB Hack Mumbai*

2026

- Received an appreciation certificate for participating in BNB Hack Mumbai.
